

As businesses explore new ways to optimize their IT infrastructure, data center managers must be prepared to adapt their strategies to meet the changing needs of their business.

The modern digital transformation has demanded a shift in the traditional data center management strategy. Business dynamism and ever-evolving hybrid environments are driving CIOs to outsource these duties rather than manage them internally. Astreya provides reliable, expert managed service solutions for IT organizations looking to make their infrastructure more resilient and agile so they can reroute attention towards innovation that drives profitability goals.

To relieve IT leaders of this strain, CIOs choose Astreya as a dependable managed service provider; providing them with necessary expertise and resources needed to manage and evolve Data Center and Network infrastructures while staying agile against today's market fluctuations.

Astreya offers a seamless solution for optimizing network and data center operations - maximizing network uptime and ensuring that data is always available when needed.

Data Center

We answer the demand for right-skilled Data Center Engineers when and where you need them - at scale. Data Center Management solutions by Astreya are designed to support fast, cost-effective and secure data center capabilities.

Network Management

Network Support services by Astreya keep your organization connected and productive. Customize the exact support level you need for engineering design, circuit provisioning, edge operations, network operations, and more.

Architecting the modern Data Center

At Astreya, we are proud to be a true end-to-end service provider. We go above and beyond other data center and network service providers by hiring specialized staff that deliver unmatched support and managed services with 24x7 assistance - ensuring superior standards far and above conventional outsourced solutions.

Data Center strategies tuned to your reality.

Astreya provides invaluable data center services that are tailored to your business's current needs while keeping long-term goals in view. Our strategic planning takes budgetary fact and regular maintenance reports into account, ensuring the success of today and extensibility for tomorrow.

A proactive network management framework.

Proactive management is the key to keeping your network running at optimal performance, safeguarding data and equipment from potential security threats. This includes updates and rigorous security protocol assessments to ensure that your network runs smoothly over time.

Turn fluctuating demand to your advantage.

Astreya brings agile operations and reliability to the forefront. Our services ensures that highly skilled resources are optimally allocated for maximum performance, even in unanticipated situations where on-demand scalability is required.

Data Centers - Astreya provides brilliant engineers with specialized expertise to optimize your data center processes; from consolidating complex systems and organizing cabinets, down to maintaining physical infrastructure.

Astreya is your key to data center success, offering management, monitoring and support of all your IT infrastructure housed in remote data facilities. Enjoy heightened security and improved uptime while relying on our experienced professionals to anticipate any issue 24/7 - allowing you to stay focused on business operations without interruption.

Network Management - Astreya offers a comprehensive and flexible approach to data networking. We offer a suite of services and network security solutions that are tailored to your specific needs; dramatically streamlining your data networking operations.

Astreya's experienced team delivers comprehensive, tailored network services on a global scale. We have over 25 years of expertise under our belt and can handle any type of data-networking requirement - whether it be high performance private networks or hybrid access solutions. Join the growing list of businesses who trust Astreya to provide reliable network management.

“

Astreya has done a great job so far, be it sourcing the right candidates for the job or managing the ongoing performance of the candidates. They actively solicit feedback and act on it in a timely manner. Great job overall!”
