

Astreya IT Service Management.

Improve your IT services

Astreya's ITSM and ITIL experts take the time to learn your current environment, understand your business goals, and design a customer-centric IT Service management solution that aligns to your business needs. Our experts will help you improve the quality, consistency, and effectiveness of your IT services through process and technology innovation and implementation.

Our solution offers important services:

Complete ITSM lifecycle management

SLAs, automation, and customized workflows

Reduced costs through improved utilization of IT resources

Greater visibility of IT costs & assets

Improved management of business risk & service disruption

Customized, Astreya-hosted ServiceNow domain

Enhanced reporting for effective IT decisions & predictability

ITSM Platform recommendations, integration, and support
